

Girl Scout Badge Program at Riverside Discovery Center Zoo

Daisy Program: Use Resources Wisely **Night Owl Badge**

In this program, scouts will learn about renewable vs. non renewable, and how to conserve natural resources. Learn the importance of recycling, and the effect it has on the environment through games, crafts, and age-appropriate lectures.

Brownies: Pets

Some pets have fur, some have scales, and some live in water, while others don't make good pets. Scouts will learn how to care for different kinds of pets and the costs of their care.

Five Senses

Scouts will use their five senses in different ways and learn how different animals use their senses.

Juniors: Habitats

Nebraska has amazing native species, and some are endangered. Scouts will learn about native Nebraska animals, their habitats, and ways to protect them.

Cadets: Animal Helper Badge

Scouts will learn the history of zoos, how animals and zoos help humans emotionally, as well as how to train our collection at RDC. Scouts will give the different animals enrichment, and scientifically document how they interact with enrichment.

Can you stay up all night like an opossum? This is an overnight trip at the RDC. The day will be filled with nocturnal animal themed games, activities, crafts, animal visits, and even gaze at the night sky!

Senior: Becoming a Voice and Advocate for Animals

This program will give scouts an opportunity to understand how RDC runs. Learn about the husbandry, training, enrichments, and research behind caring for our collection. The scouts come to respect the threats to prairie animals, their ecosystems and the important roles they play in our world.

Going for Gold?: Girl Scout Gold Award

Girl Scouts seeking their Gold Award may propose projects to be done at or through RDC.
